### Production Technician I

Requisition number: JLPT1

#### Who Should Apply:

We are looking for a Production Technician. The ideal candidate will have a background in avionics maintenance, repair and overhaul. This candidate must have strong communication skills in order to explain complex issues in a simple manner. If you've ever been frustrated with the inability to drive electronic failures to root cause, you should apply.

#### Who We Are:

Universal Synaptics is the global leader of technology used in detecting and isolating elusive intermittent faults that drive electronic failures. The advanced intermittence diagnostic solutions employ patented neural-sensing circuitry that monitors all potential failure points individually, yet simultaneously, in parallel. We solve the real multibillion-dollar problem that plagues electronics.

#### Responsibilities:

- Provide technical guidance to customer technicians
- Assist in assembly and other production tasks

#### Basic Qualifications:

- Experience in aircraft avionics maintenance, repair, overhaul and electronics troubleshooting
- High school or have equivalent certificate
- US Citizen (the position requires access to facilities with controlled access)
- Working understanding of the interrelationships of circuits
- Ability to rapidly secure DoD secret clearance

#### Plus Qualifications:

- Active Secret Clearance with 5 year back ground investigation
- USAF skill level 5 or above (or equivalent)

#### Other Information:

Type: Full-Time

Work Schedule: Standard 40 hour week

Virtual Location: No

Relocation Available: Possible

Interested candidates should send their resumes to [people@usynaptics.com](mailto:people@usynaptics.com). Please include the requisition number in the subject line.

**Universal Synaptics is an Equal Opportunity Employer. We encourage women and veterans to apply and will consider all qualified applications for employment.**
